

# Show Me How

## STEP-BY-STEP INSTRUCTIONS

### Handmade Paper Lantern

By Wesley Vogel

Paper World South Africa

#### Requirements

- 2 large sheets of handmade paper in different colours and/or textures
- Paper lantern
- Scissors
- Glue

#### Instructions

##### **Step 1**

Take 2 different paper types and cut out circles (about 50 of each paper).

##### **Step 2**

Assemble a standard store bought round paper lantern.

##### **Step 3**

Start pasting the paper circles at the bottom of the lantern on about the 2<sup>nd</sup> wire, overlapping the circles as you go around and alternating between the different types of paper to create a random pattern and texture.

##### **Step 4**

Once the bottom row is completed move up to paste the next row up, ensuring that the paper circles overlap the ones underneath them as well as the circles next to them.

##### **Step 5**

Continue working up the lamp one row at a time, alternating the paper types, until the entire lantern has been covered.

##### **Step 4**

Once it's complete, attach the lantern to a wire in the desired length and hang it up to. It'll finish drying completely and will create a lovely whimsical effect.

*So much more to life...*
